FREDLER GRACIA PIERRE-LOUIS

fredlerpierrelouis21@gmail.com | Miami, FL | (754) 276 8676 | linkedin.com/in/fredlergraciapierre-louis

Dedicated cybersecurity major with practical experience in administrative coordination and partnership support (remote), and known for strong problem-solving skills, with a solid foundation in cybersecurity principles and hands-on experience managing security protocols and sensitive information.

EDUCATION

Miami Dade College
Associate of Science, Cybersecurity (2024-2026) GPA: 3.90/4.0
College Credit Certificate: Cybersecurity Analyst & Network Security GPA 3.90/4.0
Bachelor of Science, Cybersecurity (In Progress) Expected Graduation 05/2028

- **Relevant courses**: Cybersecurity Fundamentals, Networking Technologies, Introduction to Secure Scripting, Introduction to Computer Technology and Applications, Network Defense and Countermeasures, Linux+, Cybersecurity Analysis.
- **Awards**: Academic Excellence (4.00) in Spring 2024, Summer 2024, Fall 2024, Spring 2025, Summer 2025, Spring 2026

SKILLS

- **Technologies and tools**: Python, Linux, Scripting, Firebase, Microsoft Office.
- **Cybersecurity**: Network Security, Cyber Threat Analysis, Data Protection & Encryption, Cybersecurity Principles, Ethical Hacking, Incident Response, Communication Security.
- **Soft skills**: Communication, Problem-solving, Teamwork, Multitasking, Time-Management.
- **Languages**: English, French, Haitian Creole.

EXPERIENCES

EdLight Initiative 08/2023 - Present
Technology & Cybersecurity Lead

- Managed and secured backend systems supporting 200+ users on platforms including code.edlight.org
- Created and updated Firebase security rules to control data access (read/write permissions)
- Tested and monitored API requests and responses using browser DevTools
- Reviewed network traffic (HTTP/HTTPS) to understand how data flows through the system
- Performed security scanning using Nmap to identify open ports and exposed services
- Conducted web vulnerability scanning using Nikto to detect potential weaknesses
- Tested basic attack scenarios (input testing, endpoint checks) to evaluate system security
- Fixed login, authentication, and user access issues
- Identified and reported vulnerabilities and suggested improvements

Mastercard
Mastercard Security Virtual Experience Program 10/2024

- Completed a job simulation where served as an analyst on Mastercard's Security Team.
- Helped identify and report security threats such as phishing.
- Analyzed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams.

TECHNICAL PROJECTS

Private Honeypot & Threat Monitoring Platform ,https://github.com/Fredler21/BulletProof-Sentinel 01/2026

- Developed a private honeypot and threat monitoring platform for real time attack detection
- Created fake admin logins, fake WordPress login pages, and fake API endpoints to attract attackers
- Trapped more than 10 attackers within the first 2 weeks of deployment
- Integrated automated IP blocking for repeated malicious activity, including VPN and proxy attempts
- Strengthened authentication, access control, and backend security systems
- Used Firebase and Firestore for backend infrastructure, implementing custom security rules to restrict platform access to authorized email accounts only
